Tale of Rain

Water is an inexhaustible inspiration for our designers. This is the case with Tale of Rain, which is inspired by large drops of rain falling to the ground. As in the case of water droplets, light passes through the glass balls in this lighting fixture that represent them, creating a rainbow-like spectacle pleasing to the eye.

Night sky

After dusk, the first stars gradually appear in the sky and one shines brightest... the evening star. The night sky has been an endless inspiration for artists and designers since the beginning of time. Night Sky brings a reminder of the beauty of nature and the brightness of the stars to your interior.

Glitter. Design. Novelty. That is Almond. Like the Crystallo collection, Almond plays with a simple, this time rounded almond shape in a modern black or white colour, which is enlivened by interestingly placed glittering trimmings.

Polygon Pendant

Polygon Pendant uses individual decorative elements and creates an interesting and unique design lighting fixture. The combination of smoky bent glass and polished metal patterns catches the eye at first glance. With its interesting design, it also stands out as an individual pendant and at the same time encourages the creation of rich installations.

Glory

Glory is another of our collections inspired by the beauty of nature. The perforated metal shade carries a recurring motif of the lotus flower, which has become a symbol of purity and rebirth thanks to the shape of its bloom, scent and colour. The lotus grows up from the muddy soil through the water to the surface, where it develops its rich bloom. The path of the lotus to reach the sun's rays symbolises the spiritual development of human beings. Glory will bring a touch of nature and harmony to your interior.
